Mr. Charles Brandt,  
Canadian Conservation Institute,  
1030 Innes Road,  
Ottawa, Ontario. K1A 0M8

Dear Charles,

Further to our telephone conversation of November 10th, I would like to invite you to deliver a guest lecture to the M.A.C. students at Queen's University.

The suggested date of Wednesday, December 3rd would be excellent. I know that your comments will be a very valuable contribution to the Program. The lecture would be scheduled for the period 1:30 - 2:30 p.m., but we would hope that you could arrive earlier so as to be able to join the faculty for lunch. You would be welcome to visit more informally with the staff and students following your lecture. They always appreciate the chance to talk to a visiting expert and you would have a chance to meet our current crop of students.

I look forward to your visit. Many thanks and best regards.

Yours sincerely,

J.F. Hanlan,  
Associate Professor,  
Art Conservation Program.
