Dear Mr. Brandt,

We are pleased to accept your article, 'Conserving Audubon's
Birds of America, Volume I, for publication in The Beaver.

Only one or two details: Could we quote the current market
price of such a volume, and/or one of the prints? I'm
sure readers would be interested in the value of this rare
volume and hand-coloured prints.

We will schedule it tentatively for Winter 1982, and could
consider using one of the prints on the cover.

I expect the term 'double elephant' folio edition would
mean 2 (711 x 584 mm). I would insert this in brackets if
it is correct.

On page 4 - Thirty-eight samples were taken of the pigments
used in the colouring of the images; these (?) were removed
by sharp scalpel... .

See p. 4

I will look forward to hearing from you on these details.
In the meantime, I have asked that our cheque for \$400 be
mailed to you from Toronto.

Yours sincerely,

Helen Burgess
