Dear Father Brandt:

Thank you for providing me with a copy of your March 14th letter to Jack Davis on the status of attempts to minimize pollution of the Tsolum River watershed from the abandoned Mt. Washington copper mine.

I will refer your letter to our environment critic, John Cashore, MLA, for his information. You might want to add Mr. Cashore to your mailing list for future communications about this and other important issues of concern.

My thanks again for keeping our caucus informed.

Yours truly,

Mike Harcourt
Leader of the Official Opposition
