Salvage operations for Income Security and Jewish Child
and Family Service records damaged by fire and water

As we begin to send out our letters expressing gratitude to various Armed Forces components who participated in the above-mentioned operations, I wish you to know that I was very grateful for your dedicated and knowledgeable contribution to the effort. The operation could not have been a success without your work. Watching you "pitch-in" with a complete disregard for your personal clothing, office hours, and your very rapid response to the emergency was gratifying indeed. In my opinion, the financial implications alone of what has been saved has covered the operation of our Conservation Laboratory for many years to come.

Thank you,

PB/ld
